MEMORANDUM FOR: Executive Secretary  
CIA Career Service Board

SUBJECT: Staff Study "Oral Examination of Applicants"  
dated 3 February 1953

1. Reference staff study was considered by the DD/P Career Service Board.

2. This Board agreed that a system for the oral examination of applicants should be instituted in the Agency. It felt, however, that the recommendations made in reference staff study were not adequate to handle this problem at least as far as the DD/P elements are concerned. The Board was of the opinion that further detailed consideration be given to this problem with a view to placing the responsibility for oral examinations on the various Career Service Boards of the senior staffs of DD/P. This proposal would have the advantage of spreading the workload entailed in such examinations and placing the responsibility on individuals knowledgeable in the personnel requirements of the various activities. It is recognized that details would have to be worked out for a proper implementation of this idea, but it is felt that such a procedure would come closer to setting the requirements of the DD/P organization than having the work performed either by the Professional Selection Panel or the Boards of Examiners proposed in the reference staff study.

Chief of Operations, DDP
